

Hybrid Technologies
Your Technology Experts

Company Profile

Company Information

Incepted in early 2015, Hybrid Technologies an end-end technology infrastructure solutions & services firm. Our approach towards solutions defied the conventional product selling approach as we aimed to become a trusted solution advisor. We believe in building strategic technology partnerships with our customers by designing best suited, cost-efficient, future proof yet sustainable solutions for our customers to optimize their operations/production while being cost-efficient on both CAPEX & OPEX fronts helping them yield maximum ROIs.

Likewise, the attitude of our customer services is backed by our experienced & highly skilled team which strives to be proactive in addressing customer problems, not only in shortest possible time but also advise precaution measures based on industry best practice so re-occurrence can be prevented to the best possible extent ensuring our customers achieve highest possible up-time.

Driven by our consultative approach, perseverance on industry best practices & vow to deliver what we obligate sets us apart. We serve all industry segments, including (but not limited to); Government, Financial sector, Energy, Oil and Gas, Public safety, national security, Telecommunications, Healthcare, Education & Manufacturing, ranging from large enterprises to SME businesses.

Our legacy of half a decade constructed on such principles, translates to the success we are today & still growing.....

Vision Statement

"We make sure that our clients have what they need to run their businesses as well as possible, with maximum efficiency and reliability. We recognize that CIOs are now business managers who specialize in technology. We work hard to help them create more manageable IT environments that cost less to operate and deliver more value to the business. That can mean consolidating their IT infrastructures, speeding access to information, enabling faster communication between branch offices and headquarters, or helping them deal with obsolete IT equipment"

Muhammad Fakhir Fazil—Co-founder/CEO

Mission Statement

" At Hybrid Technologies, we strive to deliver market-leading support & services to our prestigious customers 24x7x365. Our aim to lead the information technology services sector by example is our key motivating factor, which keeps us focused on elevating our standard of services each passing day "

Muhammad Shoaib Bhatti—Co-founder/COO

Alliances: Infrastructure Solutions
